## ABOUT ZIS

The zis foundation granted its first scholarships in 1956 and since then has supported over 2000 young people.

The idea goes back to the entrepreneur Jean Walter, whose life was shaped by the experiences he made when travelling in his youth. The goal of the foundation is to give more adolescents this opportunity.

zis is a registered charity, mainly funded by donations.

Mentors are volunteers, and mostly completed a project themselves.

We aim to particularly support young people whose family has a history of migration or limited access to education, or who face any other individual obstacles to travel.

## PROJECT EXAMPLES

Around 60 scholarships are offered per year.

Any well-developed application has a good chance of success.

The possibilities are endless – some example topics:

- Anti-Consumerism in Leipzig
- The Culture of German Bread
- Start-Ups and their Founders
- Sustainable Living in Copenhagen
- Second Generation Vietnamese Immigrants
- Basque Youth - a Photo Report
- Nuclear Energy in France
